NUTRIFREE BRAND

For over 20 years we have been offering our consumers the opportunity of eating healthy and balanced food without giving up taste and conviviality

OUR PRODUCT OFFER

Nutrifree product range is full of different eating solutions to accompany the consumer in each moment of the day: sliced bread, buns, mix and flours, breadcrumbs, snacks, biscuits, cereals, brioches, Italian specialities and celebration products.

More than 100 gluten and lactose free products: simple and balanced recipes and great attention to taste and nutritional quality.

Nutrifree means also the largest offer of gluten and lactose free single portion products perfect to offer convenience and safety from contamination when eating out.

OUR PRODUCTION PLANTS

Our Nutrifree products were born in the heart of Tuscany, in Altopascio, in three certified factories exclusively dedicated to gluten free production. In 2022, to meet the growing demand from the market, the company acquired a fourth facility in Emilia Romagna, entirely dedicated to the production of bread and soft cakes.

Internal production gives us the opportunity to guarantee more safety, a great flexibility, a constant innovation and a significant improvement of the food offer thanks to the ongoing research and development processes. The strict selection of raw material suppliers and rigorous supply chain supervision ensures high standard of quality and safety.

OUR CERTIFICATIONS

Nt Food ensures the highest quality and food safety standard as certified by BRCGS/IFS which guarantee more transparency to distributors and consumers. Over the years Nt Food has collaborated with Associazione Italiana Celiachia to guarantee celiac and gluten intolerant consumers the safety of the products whose gluten content must be inferior to 20 ppm according to the Ministry of Health.
